SKILLS

- Languages:** Html, CSS, JavaScript, C,C++
- Technologies:** NumPy, Pandas, Matplotlib
- Databases/Tools:** MongoDB, Git, GitHub, Figma
- Soft Skills:** Problem solving, Team collaboration, Time management, Adaptability

PROJECTS

AI-Powered Resume Analyzer & Job Recommendation System
Sep 2025 - Oct 2025

- Developed an AI-powered resume analyser using Python and NLP to extract skills, education, experience, and keywords from resumes.
- Implemented Transformer-based semantic similarity to match candidate profiles with relevant job descriptions and generate job-match scores.
- Built a web-based application using Fast API and React with skill-gap analysis and personalized job recommendations
- Tech Stack:** Python ,LLMs ,NLP ,OpenAI API,Whisper,LangChain,FAISS,FastAPI,Streamlit,PostgreSQL,Pandas,GitHub

AI Clinical Consultation Assistant & Quality Assurance Tool
Apr 2026

- Built an Ambient AI Assistant: Developed an NLP/LLM-powered tool that analyses doctor-patient conversations to monitor reported symptoms and physician responses.
- Automated Clinical Gap Analysis: Implemented a verification pipeline that cross-references patient complaints against prescribed treatments to instantly flag missed symptoms (e.g., untreated cough).
- Enhanced Decision Support & Care Quality: Delivered automated post-consultation summaries with actionable suggestions, helping doctors improve diagnostic accuracy and reduce clinical oversights.
- Tech Stack:** Python ,NLP ,spaCy ,NLTK ,Hugging Face Transformers ,Sentence-BERT ,Scikit-learn ,FastAPI ,React.js ,Pandas ,NumPy ,MongoDB ,GitHub

Student Performance Prediction System
Jun 2026 - Jul 2026

- Developed a machine learning model to predict student academic performance using attendance, academic, and demographic data.
- Performed **data preprocessing**, feature engineering, EDA, and model comparison using Random Forest, Logistic Regression, and Boost.
- Built an **interactive Streamlit dashboard** for performance prediction, data visualization, and identifying factors affecting student outcomes.
- Tech Stack:** Python ,Pandas ,NumPy ,Scikit-learn ,Random Forest ,Logistic Regression ,Gradient Boosting ,Matplotlib,Seaborn ,Plotly ,Streamlit ,GitHub

CERTIFICATES

- Data structure and algorithm using python | Infosys springboard Jan 2026
- Introduction to artificial intelligence | Infosys springboard Mar 2026

ACHIEVEMENTS

- Solved more than **150** programming problems on online coding platforms during regular practice and learning.
- Skilled in HTML, CSS, JavaScript, and MongoDB through hands-on projects.
- Strong problem-solving and debugging abilities with a focus on web development and AI/ML.

EDUCATION

- Lovely Professional University**
Phagwara, Punjab
- Bachelor of Technology - Computer Science and Engineering; **CGPA: 8.16** Aug 2025 - Present
- DAV Public School**
Angul, Odisha
- Higher Secondary Education; **Percentage: 87.6%** Jun 2023 - Mar 2025
- Rotary Public School**
Angul, Odisha
- Secondary Education; **Percentage: 90%** Apr 2022 - Mar 2023
